Datasheet

intAct AGM-Power - Marine & Leisure

Sealed AGM battery with grid plates | electrolyte fixed in fleece | filled and charged | absolutely maintenance-free

Art.No.

AGM50-900

Volt	12V
Capacity	50 Ah (c20), 65 Ah (c100)
CCR -18°C (EN)	-
Electrolyte	diluted sulphuric acid
Electrolyte density	1,28 +/- 0,01 Kg/l (25° C)
Size (LxWxH)	260 x 173 x 206 mm
Weight	18 kg
Pos. of Terminal	**1**
Terminal	**1 und US**
Bodenleiste	**-**

Usage

Maintenance-free all-round

The **intAct AGM-Power - Marine & Leisure** is a versatile, reliable energy source for motorhomes, boats and solar and wind power systems. Thanks to modern AGM technology, the batteries are **maintenance-free, leak-proof** and can be installed flexibly, even horizontally. Their **high vibration resistance** ensures reliable performance even under harsh conditions. Impresses with its long service life, low self-discharge (<3 %/month) and short charging times. The performance quality remains constant even at high currents and deep discharges.

Advantages at a glance:

- **Universally applicable:** perfect for hobbies, motorhomes, boats, solar systems and many other applications.
- **High cycle stability** for long-lasting performance.
- **Absolutely maintenance-free and leak-proof:** Can be installed safely and flexibly in any position.
- **Extremely robust:** High vibration resistance thanks to thick grid plates and reinforced fleece separators.
- **Longer service life:** Significantly longer service life, low self-discharge and shorter charging time than conventional batteries.
