Datasheet

intAct GEL-Power - Marine & Leisure

Sealed GEL battery with grid plates | electrolyte gel-bonded | filled and charged | absolutely maintenance-free

Art.No.

GEL-60B

Volt	12V
Capacity	51 Ah (c5), 60 Ah (c20), 65 Ah (c100)
CCR -18°C (EN)	-
Electrolyte	diluted sulphuric acid
Electrolyte density	1,28 +/- 0,01 Kg/l (25° C)
Size (LxWxH)	278 x 175 x 190 mm
Weight	20,8 kg
Pos. of Terminal	**0**
Terminal	**1**
Bodenleiste	**B13**

Usage

Strong and maintenance-free

The **intAct GEL-Power - Marine & Leisure** is the ideal choice for applications with high energy requirements. The **maintenance-free gel supply batteries** are suitable for storage in solar and wind power systems, for motorhomes, boats and other consumers. Thanks to modern gel technology, they offer **high capacity** and can withstand recharging fluctuations and deep discharges better than conventional lead-acid batteries. Their **very high vibration resistance** makes them particularly robust. In addition, they are leak-proof, **absolutely maintenance-free** and are supplied filled and charged - ready for immediate use.

Advantages at a glance:

- **Versatile use:** Perfect for motorhomes, boats, coaches and as a buffer for renewable energy systems.
- **High cycle stability:** Ideal for increased cyclic applications.
- **Maximum reliability:** Resistant to recharge fluctuations and deep discharges.
- **Long service life:** Significantly longer service life than conventional lead-acid batteries.
- **Robust and safe:** Very high vibration resistance, maintenance-free and leak-proof.
