Datasheet

intAct Traktion-Power

Closed lead-acid battery with reinforced grid plates | low maintenance

Art.No.

96801GUG

Volt	12V
Capacity	180 Ah (c5)
CCR -18°C (EN)	-
Electrolyte	diluted sulphuric acid
Electrolyte density	1,28 +/- 0,01 Kg/l (25° C)
Size (LxWxH)	518 x 276 x 242 mm
Weight	57 kg
Pos. of Terminal	**3**
Terminal	**1**
Bodenleiste	**-**

READY

99%

Usage

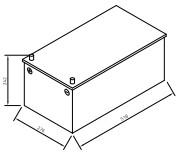

Proven and cost-conscious

The **intAct Traction Power** traction batteries provide a cost-effective and reliable power source for devices such as golf carts, wheelchairs, lifting platforms and industrial trucks. With excellent **high current characteristics** they are ideal for cyclic use. Reinforced grid plates with special insulation guarantee **high capacity reserves** and a long service life. The batteries are suitable for light cyclical use and can be optionally equipped with a **water filling system** to extend maintenance intervals.

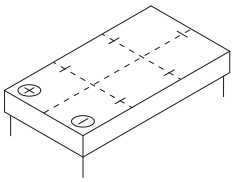

Advantages at a glance:

- **Cost-efficient** and proven for various applications
- Excellent **high current characteristics**
- Reinforced grid plates for **maximum capacity**
- **Rugged construction** for versatility and durability
