Usage

Maintenance-free all-round

Completely sealed maintenance-free and leak-proof, therefore well suited for the interior. Uncomplicated power supply for hobby and leisure-time pursuits and smaller solar applications. Our recommendation for those looking for an affordable sealed supply battery.

- » 300 charging cycles according to IEC 254-1.
- » Longer service life than flooded lead-acid battery.
- » Low self-discharge.
- » VRLA battery with gas recombination and safety valves, where refilling is neither possible or necessary.
- » Sealed AGM battery with grid plates.
- » Leak-proof. Can also be installed at an angle, as the electrolyte is absorbed in glass fibre mats and the battery is tightly sealed.
