

intAct Start-Stop-Power AGM Asia

Sealed AGM battery | electrolyte bound in fleece | filled and charged | absolutely maintenance-free

Art.No.

AGM45SS-O-ASIA

Volt	12V
Capacity	45 Ah (c20)
CCR -18°C (EN)	380 A (EN)
Electrolyte	diluted sulphuric acid
Electrolyte density	1,28 +/- 0,01 Kg/l (25° C)
Size (LxWxH)	237 x 127 x 225 mm
Weight	13,5 kg
Pos. of Terminal	0
Terminal	1
Bodenleiste	-

Usage

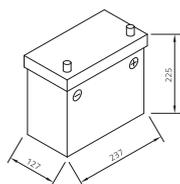

Start. Stop. Continue charging.

Enables a high number of engine starts and supplies all consumers when the engine stops. Perfect for cabs, mid-range and luxury cars, SUVs and trucks with start-stop systems and micro-hybrids with brake energy recovery (recuperation). Our recommendation for start-stop vehicles with high energy requirements and micro-hybrids with recuperation.

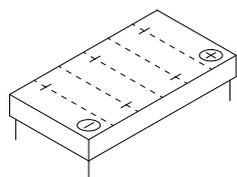

- » **Very good starting behavior** even with a low state of charge.
- » **Higher cycle stability and cold-start performance** than standard starter batteries of the same box size. Therefore **longer life expectancy**.
- » **Extremely good recharging behavior** in the partial charge range.
- » **Also for vehicles with high energy requirements and/or a lot of additional equipment.**
- » **Double cover with safety valve (VRLA)**, gas recombination and backfire protection. Leak-proof.
