Usage

Start. Stop. Continue charging.

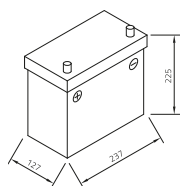

The intAct Start-Stop-Power AGM was specially developed for modern vehicles with a start-stop system. It offers a reliable, powerful and long-lasting solution for high demands. Thanks to **AGM technology (Absorbent Glass Mat)**, the electrolyte fluid remains bound, making the battery **leak-proof, maintenance-free and vibration-resistant**. Perfect for vehicles with frequent start-stop operations.

Advantages at a glance:

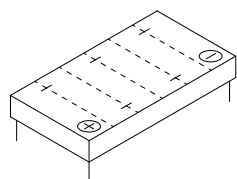

- » **Highest cycle stability** - ideal for many charging and discharging cycles
- » **Fast charge absorption** - ideal for regenerative braking energy
- » **Reliable cold start**, even at low temperatures
- » **Absolutely maintenance-free** - no refilling necessary
- » **Vibration-resistant** - particularly robust design
- » Perfect as an **upgrade for EFB batteries**
