

intAct Start-Stop-Power AGM

Sealed AGM battery | electrolyte bound in fleece | filled and charged | absolutely maintenance-free

Art.No.

AGM60SS

| | |
|---------------------|----------------------------|
| Volt | 12V |
| Capacity | 60 Ah (c20) |
| CCR -18°C (EN) | 680 A (EN) |
| Electrolyte | diluted sulphuric acid |
| Electrolyte density | 1,28 +/- 0,01 Kg/l (25° C) |
| Size (LxWxH) | 242 x 175 x 190 mm |
| Weight | 17 kg |
| Pos. of Terminal | 0 |
| Terminal | 1 |
| Bodenleiste | B13 |

Usage

Start. Stop. Keep charging.

Enables a high number of engine starts and supplies all consumers when the motor stops. Perfect for taxis, medium and high-end cars, SUVs and trucks with start-stop systems and micro-hybrids with brake energy recovery (recuperation). Our recommendation for start-stop vehicles with high energy demand and micro-hybrids with recuperation.

- » Excellent starting characteristics even at low charge level.
- » Higher cycle stability and cold start performance than a standard starter battery of same case size. Resulting in a longer life expectancy.
- » Fantastic recharging behaviour in the partial charge range.
- » Also for vehicles with high energy requirements and/or a lot of additional equipment.
- » Double lid with safety valve (VRLA), gas recombination and backfire protection. Leak-proof.
