Usage

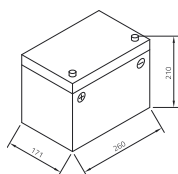

Maintenance-free all-round

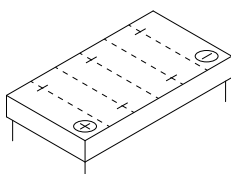

Completely sealed maintenance-free and leak-proof, therefore well suited for the interior. Uncomplicated power supply for hobby and leisure-time pursuits and smaller solar applications. Our recommendation for those looking for an affordable sealed supply battery.

- » **300 charging cycles according to IEC 254-1.**
- » **Longer service life** than flooded lead-acid battery.
- » **Low self-discharge.**
- » **VRLA battery with gas recombination and safety valves,** where refilling is neither possible or necessary.
- » **Sealed AGM battery with grid plates.**
- » **Leak-proof.** Can also be installed at an angle, as the electrolyte is absorbed in glass fibre mats and the battery is tightly sealed.
