Usage

intact Battery-Guard - The battery monitor for all 12 volt batteries.

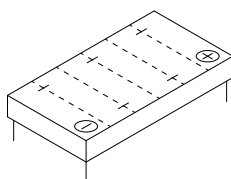

Battery monitoring with Bluetooth transmitter and iOS or Android app quickly and easily. Because only a fully charged vehicle battery will not let you down.

- » Suitable for all 12V lead-acid (wet, AGM, EFB or GEL) and 12V lithium (LiFePO4) batteries.
- » Monitor four vehicles simultaneously on the screen.
- » Bluetooth version 5.3.
- » App for iOS and Android.
- » No damage possible due to reverse polarity.
- » Power consumption only about 1.5 mA.
- » Very useful additional functions.
