Datasheet

intAct BackUp-Power

Sealed calcium battery (Ca/Ca) | electrolyte absorbed in glass fibre mats (AGM) | filled and charged | absolutely maintenance-free

Art.No.

BU11

Volt	12V
Capacity	11 Ah (c20)
CCR -18°C (EN)	150 A (EN)
Electrolyte	diluted sulphuric acid
Electrolyte density	1,28 +/- 0,01 Kg/l (25° C)
Size (LxWxH)	150 x 87 x 132 mm
Weight	3,9 kg
Pos. of Terminal	**1**
Terminal	**Schraubanschluss**
Bodenleiste	**-**

Usage

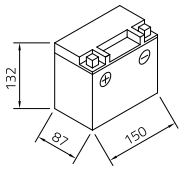

Support for the starter battery

The **intAct BackUp-Power** is an AGM auxiliary battery that reliably supplies electrical consumers such as hi-fi systems or parking heaters with power - without putting a strain on the starter battery. It is **three times more cycle-resistant** than conventional lead-acid batteries and impresses with **longer service life** and **increased cold-start performance.** Thanks to **absolutely maintenance-free, leak-proof AGM technology**, it can be installed at an angle of up to 45 degrees. The battery is filled, charged and ready for use immediately.

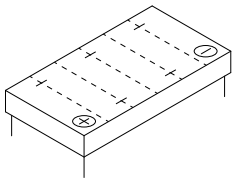

Advantages at a glance:

- Reliable power supply for additional consumers
- **Three times the cycle life** compared to standard batteries
- **Completely maintenance-free & leak-proof** thanks to AGM and VRLA technology
- **Increased cold start performance & longer service life**
- Can be installed at an angle of up to 45
- **OEM quality** for maximum reliability
