

## intAct Traktion-Power Deepcycle AGM

Sealed AGM battery with grid plates | electrolyte fixed in fleece | filled and charged | absolutely maintenance-free

Art.No.

## DC06-220AGM

Volt	6V
Capacity	192 Ah (c5), 234 Ah (c20)
CCR -18°C (EN)	-
Electrolyte	
Electrolyte density	
Size (LxWxH)	306 x 169 x 224 mm
Weight	32,2 kg
Pos. of Terminal	1
Terminal	F-M8
Bodenleiste	-

## Usage

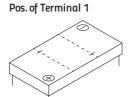

## Robust and enduring

AGM-based for high currents and deep charge cycles. Our recommendation if you want an enduring, absolutely maintenance-free battery for electric vehicles or lifting platforms.

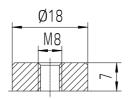

- » Very high life expectancy. 700 cycles according to IEC 254-1 for heavy cyclic use.
- » Absolutely maintenance-free. VRLA battery with gas recombination and safety valves, where refilling is not possible and not necessary.
- **» Constant power quality** throughout the discharge process even at high currents.
- » Longer life than wet lead-acid battery.
- » Shorter charging time than wet lead-acid battery.
- **» Low self-discharge.** Loses less than 3% charge per month.
- » Vibration resistant AGM battery with robust grids and strong fleece separators.
- » Reinforced grid plates with higher performance active material for deep cycle applications.
- » Temperature and corrosion resistant case.
- » Can also be installed horizontally.
- » Leak-proof.
