

intAct Bike-Power GEL HVT-HD

Sealed maintenance-free GEL with extra compressed plate packs | electrolyte thickened into a gel-like mass | absolutely maintenance-free

Art.No.

GEL-HVT-01

Japancode

65989-97A, YTX20HL-BS, YTX20L-BS, YTX20HL-BS-PW, YTX20HL, YTX20L, , GYZ20L, GYZ20HL

Volt	12V
Capacity	20 Ah (c20)
CCR -18°C(EN)	350 A (EN)
Electrolyte	diluted sulphuric acid
Electrolyte density	1,28+/- 0,01 Kg/l(25°)
Size (LxWxH)	175 x 87 x 155 mm
Weight	6,4 kg
Pos. of Terminal	0
Terminal	M
Bodenleiste	-

Usage

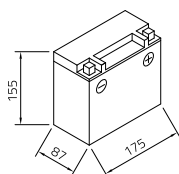

Extremely vibration-resistant power package

The **intAct Bike-Power HVT GEL** series offers the ideal energy supply for **high-capacity two-cylinder motorcycles** such as Harley Davidson. The electrolyte in these **GEL motorcycle batteries** is gel-bound, which ensures **absolute leakproofness** and makes the battery particularly resistant to **vibrations and shocks**. With **higher starting performance** and **lower self-discharge**, the battery starts reliably even after long periods of inactivity. Perfectly suited for **off-road motorcycles, jet skis, snowmobiles** and many other seasonally used vehicles.

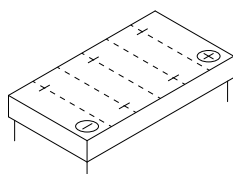

Advantages at a glance:

- » **High power reserve**, reliable even after long downtimes
- » **Extremely vibration-resistant** thanks to compact plate packs
- » **Robust housing** made of impact-resistant plastic for optimum protection
- » **Low self-discharge**, ideal for seasonal use
- » **Maintenance-free & leak-proof** thanks to GEL technology
- » **Sealed ex works**, Ready for immediate use
