Usage

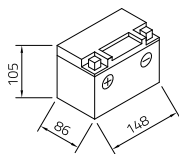

Small powerhouse with a long service life

The **intAct Bike-Power Lithium** motorcycle batteries offer premium performance for every motorcycle, whether **standard or custom bike**. With just 12 types, this series covers almost every need. The **LiFePO4 lithium technology** saves up to 75% in weight compared to conventional batteries and delivers **highest starting currents** despite its compact size. **Thanks to** low self-discharge **and** fast recharging, **these batteries offer exceptional performance**. The **integrated BMS** (battery management system) with balancing** ensures a long service life.

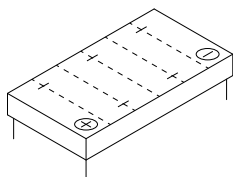

Advantages at a glance:

- » Up to 75% weight saving
- » Low self-discharge and fast charging
- » Almost 100% usable capacity
- » Battery management with balancing
- » LED indicator for checking the charge status
- » Adhesive adapter pads to adapt to any battery compartment
